Subject: Support for Cleaner Car Contracts

Dear Sir, Madam,

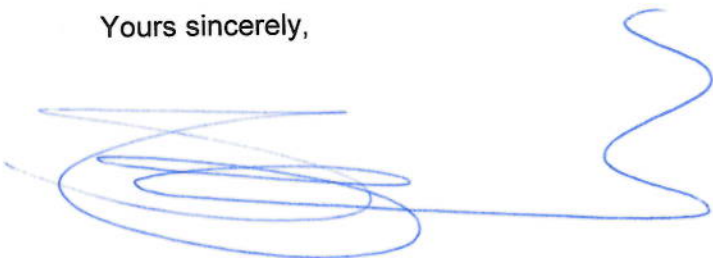

Within **Van Dorp installaties bv**, protecting the environment and improving the sustainability of our business is a key element of our CR commitment. Part of that endeavour is to minimise the carbon emissions of our lease fleet.

Van Dorp installaties bv leases a fleet of 38 passenger cars from Business Lease Nederland B.V.. Naturally, we require the vehicles we lease to be as fuel efficient as possible.

That is why we are pleased that our business partner Business Lease Nederland B.V. recently signed a Gold Fleet Cleaner Car Contract. This move demonstrates their ambition to be a front-runner in improving the fuel efficiency of lease fleets.

In its business with Business Lease Nederland B.V., **Van Dorp installaties bv** will actively support the GOLD ambition which Business Lease Nederland B.V. signed up for by adopting policies to reduce fleet-average fuel-efficiency and CO₂-emissions towards 95 gr/km in 2020 or better. This way, we jointly aim for a faster introduction of more fuel-efficient cars on the market. **Van Dorp installaties bv** welcomes any European legislation that will help speed up the introduction of fuel-efficient vehicles.

Yours sincerely,

A handwritten signature in blue ink, consisting of several overlapping loops and a long horizontal stroke extending to the right.
